## Consultation on the age limit for restorative activities in the oral health therapy scope of practice

### Q5 Please describe your specific concern/s with the proposal

- not enough training for BOH dealing with adult population, doing large complex deep restorations, no knowledge of how to diagnose pulpitis, assessing restorability of a tooth, concepts of complex occlusion
  - in my experience referrals have been made from therapists to a dentist for treatment due to the incapability of the oral therapist to complete larger restorations, diagnosing caries correctly and reading radiographs
  - a greater divide in care between the rich and poor - higher SES members have access to higher quality treatment and a higher degree of training, low SES only having access to lower quality treatment - less training
-
