Page 3: The proposal

<b>Q3</b> Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged).	<b>Strongly disagree</b>

## Consultation on the age limit for restorative activities in the oral health therapy scope of practice

### Q5 Please describe your specific concern/s with the proposal

A lot of children are reaching 13 and 18 without their needs being met already, and I think this should be our priority. There seems to be this thinking that this would alleviate the burden of dental disease from adults but surely looking after our children's dental health before they become adults would have an even better effect! Especially because this would also decrease the financial burden for them and NZ. Looking after the nation's children's dental health is already a daunting task, surely instead of giving more resources to the adults and taking away from therapists resources we should be helping our therapists to better do the task they already have.
