Page 3: The proposal

<b>Q3</b> Do you agree or disagree with the proposal to remove the 18-year age limit for restorative activities from the OHT scope of practice including: accredited, gazetted programmes allowing oral health therapists to perform restorative treatment on patients 18 years and older an exclusion, such as "Restorative treatment on patients 18 years and older", being placed on oral health therapists' scopes of practice until they complete an accredited adult restorative programme which will allow them to apply to have the exclusion removed (noting that the activities registered oral health therapists can currently perform within their scope of practice remain unchanged).	<b>Strongly disagree</b>

Page 5: Your concerns

## Consultation on the age limit for restorative activities in the oral health therapy scope of practice

### Q5 Please describe your specific concern/s with the proposal

1. The workforce to treat under 18s are already overwhelmed and will become even more burdened if the proposal comes through. As a general dentist, I have already been seeing a lot pre high schoolers for emergency treatments because community dental does not have time for them.
  2. If the proposal does come through. The work needs to be under supervision and prescription of a dentist. Personally, I have know therapists telling me that they normally just do 2-surface fillings and would really hesitate to even touch a 3-surface filling.
