Q5

No

Do you support the proposed Supplementary risk management principles for oral health during the COVID-19 pandemic? If you do not support the draft, please share your concerns, reasons for your view, and proposed alternatives if you have any.

Q6

Please share any comments you have below:

shouldn't need to change an apron after every patient. Orthodontists see the patients for like 10 minutes changing elastomerics/wires or cut a wire etc, it is wasteful and not necessary. If the mask can be used for up to 4 hours, what is the rationale that the gowns/aprons to be changed every patient of 5-10 minutes?
