Q5

Yes

Do you support the proposed Supplementary risk management principles for oral health during the COVID-19 pandemic? If you do not support the draft, please share your concerns, reasons for your view, and proposed alternatives if you have any.

Q6

Please share any comments you have below:

Would it be possible to revise the wording relating to wearing of gowns.

Currently the wording advises that gowns (short or long sleeved) or plastic aprons over short sleeved gowns should be changed between patients.

However in an education facility (for example), clinical supervisors may not be carrying out a dental procedure other than checking a a stage of treatment that has been carried out. When this occurs, is it necessary to change gowns between patients?
