**Q5**

No

Do you support the proposed Supplementary risk management principles for oral health during the COVID-19 pandemic? If you do not support the draft, please share your concerns, reasons for your view, and proposed alternatives if you have any.

**Q6**

Please share any comments you have below:

The stand down of a clinic room regardless of whether an AGP has been performed doesn't align to standards internationally and will have major impact on arrears in the Community Oral Health Service. There are similar concerns for private dentists. Similarly for non-AGP requiring use of single use garments is non-sustainable and does not necessarily align with the evidence.
